Nov. 16th, 2021

Below is the list of questions received as of today and their respective replies:

1. Q: Please advise as to what is the fork lift height or the last stacking height; per the technical data provided, it states the extended height.

A: RFQ's section III. Specification "b. Roller tilting carriage (mast extended), min. 12.00 m" describes fork lift height or the last stacking height which shall reach up to 12.00 m.
